MOTOR TRUCK ACCIDENT RESULTS IN DEATH OF ANTHONY PIERCE

Chain Loosens on Heavy Machine on Fifth Street and it Starts on Race

WHEELS GO OVER PIERCE

Man on Seat With Driver is Pitched From Place—Truck Brings up After it Had Torn Down Sapling Nervy Driver Sticks With it

Anthony Pierce, aged about 55 years, was injured so seriously that he died four hours later and three others received a shaking up when the heavy GMC truck of the Charleroi Lumber company broke from the control of driver Charles Sangston, upon a chain becoming loosened, and tore over the curbing on Fifth street just above Washington avenue and down the sidewalk against a tree in front of the home of Dr. J. K. Smith, shortly after 10 o'clock today. Pierce was seated with Sangston and was thrown head foremost when the machine hit the curb. Two of the heavy wheels passed over his body and, crushed, bruised and lacerated he was removed to the Memorial hospital at Monongahela. He died at 2:20 o'clock this afternoon.

Driver Sangston was running the truck from Crest avenue down Fifth street, when just above Lincoln avenue he felt the chain of a rear wheel give. The truck plunged forward with with a momentum that he could not control. He attempted to guide it against the right curb, hoping to control it in this way. The heavy truck only jolted as it broke off a chunk of the stone and went on over pitching Pierce from his seat. The front wheel passed over Pierce's limbs, it seemed, and before he could pull himself aside the rear wheels were upon him. He was injured about the chest and limbs and his arms were lacerated, one of them badly. Sangston stuck gamely to his seat and attempted to control the truck. It turned against a tree in front of Dr. Smith's home, tearing it down. Then it stopped.

William Crow of Wood Run, an employe of the Lumber company and John Smith of Dunlevy, also an employe were riding in the truck. Smith jumped and suffered a slightly injured limb. Crow was not hurt.

Medical attention was given the injured man and he was taken to Monongahela on the 10:38 train.

LOCAL SOLOISTS TO APPEAR IN CHURCH RECITAL TONIGHT

Much interest is being manifested in a concert to be given at the First Christian church tonight by local talent. Soloists will be Walter Vaughan, Warren Kinder, tenors; Miss Ethel Barth, soprano; Miss Isabella Dorbritz, contralto; Miss Norma Bosson, violinist and Mrs. Lulu Darragh, organist. Miss May Barth will be the accompanist. Miss Rachel Carroll of Monongahela will give readings, the high school girls' quartet will sing and a male quartet will give renditions.

BELLE VERNON PEOPLE SECURING MONEY FOR NEW BATHING BEACH

Speers' Shore to be Used—Is Naturally Adapted to Needs—From $300 To $500 on Hand

Contributions have been solicited by Belle Vernon people during the last few weeks for the purpose of putting their bathing beach at Speers in shape for this and successive seasons. From $300 to $500 has been taken. It is the plan to conduct the beach much along the same lines as that here and to have an attendant in charge during the opening hours. There is a good naturally formed beach at Speers so that arranging a good swimming place will be easy. Bathing has already proven exceedingly popular there.

In line with the beach idea a party of Belle Vernon musiness men and citizens, headed by Thomas McKinley visited the Speers' council Monday night and explained their ideas. He was asked in carrying them out.

NEW TRIALS IN RAILWAYS CASES

Superior Court Hands Down Opinions Reversing Washington County Courts

REFER TO RIGHTS OF WAY

Word has just been received at the local office of the Westside Electric Street Railway company that the company has won two important cases in the Superior court. In each case the opinions are written by Judge Kephart, and the Washington county court is reversed and new trials are ordered.

The cases are among a number growing out of proceedings for rights of way of the local company on its line from Charleroi to Ellsworth. The cases are entitled Hawkins, et al., against Westside Electric Street Railway Company, and Ross, et al., against the same company.

The Street Railway company took rights of way over adjoining farms under its power of eminent domain. Viewers were appointed and assessed damages from which the owners of the farms appealed to the Court of Common Pleas. The damages were considerably increased, but the Street Railway company in turn appealed to the Superior court, and the higher court has just decided in the company's favor in each case.

Girl Fatally Hurt By Auto

Margaret Lewis, the four-year-old daughter of Mr. and Mrs. G. A. Lewis, was probably fatally injured Monday, when she was run down in front of the residence of her grandparents, Rev. and Mrs. W. B. Smiley, on the Steubenville pike near Oakdale by an automobile driven by John A. Hoxsworth, of Canonsburg.

RECALL OF NATIONAL GUARD IS DEMANDED

Only Complete Failure of Negotiations With Carranza Government Will Now Bring on Hostilities—No Need for Guard at Border

Demands for the recall of the National Guard were made in the Senate Monday. From authorative sources it was learned that nothing short of the complete failure of the negotiations with the Carranza government—something highly improbable—can keep the National Guard at the border for more than a month longer. It is expected that the regulars will be withdrawn from Mexico to resume their patrol duty on the American side, until the Villa bandits have been crushed or captured, and that the guardsmen will be sent home. There are 100,000 members of the National Guard on the border, latest reports of the War Department state.

The demand for the recall of the National Guard from the border was made by Senators Townsend of Michigan and Lodge of Massachusetts, both Republicans. As it has been apparent for several weeks that the Administration has no intention of going into Mexico to restore order, the Senate speeches Monday were expected.

Complaints of guardsmen, against food and equipment, sent by them to their congressmen and senators show that both the militiamen and their friends and relatives are opposed to a summer in Texas if there is to be no need of their services.

MANY FATAL ACCIDENTS FIRST HALF OF YEAR

Commissioner John Price Jackson Shows by Statement That Number Of Persons Killed Was Equal Almost to Previous Year's Record

During the first six months of 1916, almost as many fatal accidents occurred in Pennsylvania industries and were reported to the bureau of Statistics and Information of the Department of Labor and Industry as were reported during the entire twelve months of the preceding year, according to a statement made today by Commissioner John Price Jackson.

Eleven hundred and thirty-six workers were killed during the first six months of this year while the total death list, for the twelve months of 1915 was 1,203. The total of all accidents, fatal and non-fatal, is 121,180 for the first six months of this year as against 61,540 total accidents reported during 1915. Almost seven workers were killed as a daily average during the first six months of this year. The monthly average was 189, while the monthly average of injuries, fatal and non-fatal, was 20,197.

Commissioner Jackson attributes the increase in the number of accidents, reported this year, partly to the operation of the Workmen's Compensation Act bringing in full reports, partly to the greater number of men employed this year and also to the high speed at which work has been conducted with many "green workers."

BIDS FOR ROAD ON TEN MILE CREEK

The county commissioners and the controller opened bids Monday afternoon for resurfacing the road beginning at the county bridge at West Zollarsville and extending along Ten Mile creek for 3,000 feet. The only bidder was William Pickett & Co., of Washington. If the work is done, it will be either concrete or brick, as bids were taken on both kinds of surfacing.

Steel Workers End Strike

When officials of the Canonsburg Iron and Steel company decided Monday to recognize the Amalgamated Association of Iron and Steel Workers, 300 employes, who had been on strike three weeks at Canonsburg returned to work.

FIRST OF DECIDING SERIES IS ARRANGED

Pittsburg Steel Products Club and Monongahela Independents to Play Championship Game at Charleroi Saturday

The first game of the 1916 championship series that will be played by the Monongahela Independents and the Pittsburg Steel Products baseball clubs will be played the coming Saturday on the Charleroi grounds and the greatest game with the biggest crowd of the entire season is anticipated. Four other games are to follow in the series.

Lane, a crack pitcher from Allegheny county, who has been twirling for Monongahela and calmly referred to as the unbeatable will be on the mound for Monongahela. The Pittsburg Steel Products will have "Zip" Sloan, formerly of the Saginaw, Mich., club and one of the best amateur pitchers in the business on the mound. Sloan this season has been pitching probably the best ball of his whole career and has won games from Greenville, Meadville and Ambridge. Last Saturday, hurling for the P. J. Sullivans of Lawrenceville he beat the classy Ambridge club by the score of 7 to 4.

Manager Regester of the Steel Products has signed a new shortstop in the person of Gepsie, late of the Frick Coke league. He is said to be a fast infielder and hard hitter. The remainder of his team remains intact with the famous Charlie Parkins, once famous in league circles as the field captain. The game Saturday is to begin promptly at 3:30. Monongahela is promising to bring a large crowd and other sections of the valley will send big delegations.

EXCAVATING FOR THE COUNTY HOME ANNEX

William Pickett, of Washington, has a large force of men engaged in excavating for the foundation for the annex which is to be placed on the north side of the County home, at Arden. The dirt is being used to make much needed fills about the big barn of the County home property and at other buildings nearby. The work will soon be completed, after which J. U. Bumbarner, contractor on the erection of the big annex will put a force of men to work on the erection of the structure.

EXCITEMENT AND EXERTION CAUSE OF JEWART'S DEATH

JUDGE M'ILVAINE RECOVERING FROM RECENT AUTO ACCIDENT

Washington County Jurist Goes to Cambridge Springs to Remain Until Beginning of Court

Letters received by friends in Washington from Judge J. A. McIlvaine state that the latter expected to leave Warren, O., Monday for Cambridge Springs. Judge McIlvaine was confined to the hospital in Warren for several days as the result of an automobile accident soon after he started on a trip to Michigan. His injuries did not prove serious, two ribs having been broken and some bruises sustained. He was able to walk around his room two days after the injury was received. Judge McIlvaine, Mrs. McIlvaine and Miss Shaw will spend the next three weeks in Cambridge Springs and will return to Washington in time for the judge to take up his duties when the grand jury meets on August 14.

NOT PLAYING ROAD POLITICS

So Explains State Highway Chief to Division Engineers Under Him

RUMORS OF CHANGES HEARD

Highway Commissioner Frank B. Black Monday informed the 15 division engineers of the State Highway Department, who gathered at Harrisburg for their summer conference, that he purposed to adhere to the promotion-by-merit policy of the late R. J. Cunningham, his predecessor. Mr. Black's remarks were taken to mean politics would not rule the department. He told the men efficiency would be the rule. It will be recalled that Mr. Cunningham declined to allow politics to be played with his force just before the primary and it was one of the departments not affected by the administration's policy in those troublesome days.

There are rumors of wholesale changes when the Governor returns from Maine, and Black's stand adds zest to the situation.

McCLAIN-LEONARD WEDDING SOLEMNIZED IN PITTSBURG

The wedding of Miss Mildred Leonard, daughter of Mr. and Mrs. A. J Leonard of Beallsville, and Kirk A. McClain, formerly of Twilight borough, now postmaster of Fredericktown, was solemnized in Pittsburg during the last week. News of the wedding comes as a pleasing surprise to the friends of the well known young couple. Mrs. McClain had been engaged in teaching school in East Bethlehem township for the past two years and was very successful. Mr and Mrs. McClain departed on an extended wedding trip. It is stated that the couple will live in Fredericktown.

EXCITEMENT AND EXERTION CAUSE OF JEWART'S DEATH

Such is Belief of Coroner's Jury Sitting in Inquest at Speers

WITNESS FAILS TO ARRIVE

Thomas Maloy Does Not Appear to Give Testimony—Kittle Not Held Responsible in Any Way For Death Of Man

That exertion and excitement believed incidental to an attempt to escape after a visitation to the chicken roost of John Kittle, brought on the death of Harvey Jewart at Speers July 16, was the sense of the coroner's jury which concluded its inquest Monday night and made public its verdict today. Coroner James T. Heffran conducted the inquest which was started last week. He waited until Monday in order to give Thomas Maloy, said to have been one of the raiding party a chance to show up. Maloy failed to arrive from West Virginia and the inquest was concluded.

The verdict rendered is self explanatory, the jury find that Harvey Jewart came to his death at the home of J. H. Krepps on July 18, 1916 from angina pictoris. We further find that he was not shot, but we believe he was present when shots were fired at the home of John Kittle on Sunday morning, July 16, said shots being fired by John Kittle to scare persons who were attempting to steal chickens. The excitement and exertion in running away we believe aggravated the heart trouble from which the now deceased man suffered and was probably the immediate cause of death. We find John Kittle was in no way responsible for the death."

The jury sitting in the inquest was composed of William Steel, Van S. Speers, G. R. Walters, C. K. Chalfant, T. C. Cowell and J. R. Davenport.

The last testimony in the case was given by Deputy Coroner Lawrence B. Frye of Charleroi, who was with Coroner James T. Heffran when Thomas Maloy is said to have admitted the visitation to Kittle's chicken coops and to have admitted details of the race afterward to get away.

DELAYED ANNOUNCEMENTS OF TWO WEDDINGS MADE MONDAY

Two much delayed announcements of weddings were made at Monongahela Monday. One was that of Miss Anno C. Brightwell of Fayette City and Earl V. Marshall of Monongahela. The other is that of Miss Amy Esther Zeitz of New Eagle to Otto Volker of Monongahela. Mrs. Marshall is a graduate of Douglas Business college at Charleroi. The groom is an electrician at the Donora Zinc works. Their wedding occurred on June 24. The Volker-Zeitz nuptials were performed April 12 in Pittsburg. Mr. Volker is a cutter at the American Window Glass plant at Belle Vernon.

Mr. and Mrs. T. A. Morgan of Fallowfield avenue are spending their vacation at Point Chautauqua, Niagara Falls and other points of interest.

ROBBING CHILDREN

The present habit of turning night into day in our highly illuminated towns, with an sorts of wholesale entertainment, keeps the nerves keyed up and upsets the equilibrium, says the state health commissioner.

Children especially are apt to suffer from late hours and consequent lack of sleep. For the first two years of life, eating and sleeping are the two great essentials.

Babies should sleep from fifteen to twenty hours out of the twenty-four and older children from ten to fourteen hours. It is not an unusual thing to see babies in arms or very young children being carried about until their parents' bed time. This is injurious to the children and cannot be made up by additional rest the next day.

Permitting children to remain up late is a strain on their nervous system which, it may not be immediately apparent, is bound to exert a detrimental influence in the long run. Oftentimes the ill effects are perfectly apparent to the intelligent observer.

Irritableness and any of the train of evils which result from an overtaxed nervous system may result from continually robbing the child of sleep. A regular bed time should be set for children according to their age, ranging from six o'clock for babies to eight for children of eight or nine and this should be regularly adhered to. This is a mater of the utmost importance in establishing a sturdy constitution in childhood.

With adults, irregularity and short hours of sleep are often a factor which predisposes to ill health. There are exceptions to this as to all rules. Occassionally one will find an individual who has an unusual capacity for work with less than the ordinary amount of rest but for the ordinary man or woman this would end disastrously.

ALL BACK TO THE FOLD.

The Washington party of Pennsylvania and the Progressive party of the nation have been voted out of existence by their own adherents and the members of both are back in the Republican fold.

The members of both these parties have followed the lead of Col. Roosevelt and have come back where they are certain of being of much service to their country.

The return of the political strays to the fold of Republicanism simply marks the beginning of the end of Democratic control in this country and there is no longer even a shadow of a doubt that the policies and principles of the Republican party will be approved throughout the nation at the coming Presidential election in November.

Charles E. Hughes, the Republican candidate for the Presidency, has been scrupulously careful in the selection of his campaign committee and he has chosen men without factional alliances and only those who have their first and greatest interest in the restoration to the county of a Republican administration.

There is no mistaking the sincerity of the voters generally to return to Republican policies and principles. They are heartily wearied of the prosperity in spots, brought about by the foreign war, and they want a return of the substantial prosperity brought about by the fixed policy of protection. That they can get only through Republican success.

Last summer, through a special arrangement in effect during the warmest weather of the summer, frequent sprinkling of the streets, with proper sweeping, gave relief from the humidity and dust. This is the sort of new garment that should be put into effect this summer. Comfort of the people demands it. The down town streets should be treated to a sprinkling daily if it can be arranged and the blazing bricks of the hill section should receive at least an occasional dampening.

There is a disorderly, vicious element of Monessen Italians, aperating their nefarious schemes through a string of towns that is sadly in need of cleaning out. In one year's time Monessen has had three murders and various shootings that did not result in murder, all arising it seemed from the same cause. Illegal trafficing, pandering and gambling are said to have been carried on systematically by them and the region seems infested with undesirables. There is a remedy to such conditions and that remedy lies in an organized campaign against them. Putting a few of the ringleaders in the workhouse or penitentiary for a few years confinement and labor would work wonders.

PICKED UP IN PASSING

A somewhat befuddled individual who had evidently been lunching a trifle too freely, climbed on board the car with difficulty.

"What's the matter?" he asked, mildly, as he observed the conductor's impatience. "Ain't this car the one I want?"

"How do I know whether it is or not," growled the conductor.

"Oh, you must have known it, or you wouldn't have stopped to let me catch it," said the befuddled one.

A few days ago a gentleman and his wife stopped at one of our hotels and were given a room with a bath.

"What in tarnation did that durned clerk mean by giving us this kind of a room?" angrily demanded the man.

"Why, what's the matter now, Ed?" asked his wife.

"Matter? Can't you see there is only one door leadin' to the bathroom, and naturally any guest of the hotel who wants to use the bathtub has got to walk through our room to get to it. Guess they don't think we want any privacy at all."

WOMAN AND WAR

A Western woman doctor declares that women are physically fit for service at the battle front. Probably some exceptional women may be, but are not the majority prone to ailments which make even household cares a burden? Hence the necessity for that great remedy which during forty years has done more than any other to relieve such ailments and mitigate the suffering of American Women—Lydia E. Pinkham's Vegetable Compound.

GINGLES' JINGLES

COLLEGE DAYS.

When your college days are over do you think you'll be in clover? Do you think your dreams of yore will all come true? Have you got a bed of roses mapped and picked for your reposes? Do you think with real hard work you then are through? If you do you are mistaken, from your visions you'll be taken, and experience will come with much surprise. You will work and keep a boosting, or you'll find old failure roosting close at hand and to your stunts he's always wise. Life is stern, severe and trying, you climb slow—you do no dying, when the hard knocks college course you once begin, but the ones who care to hustle, who will work with brain and muscle, be industrious and patient always win. There's a place for all the workers, nothing doing for the shirkers, it's a case of hust accomplish or skidoo, this old earth is there with medals for the guy who thinks and pedals—but a life of ease and idleness won't do.

Early and provident fear is the mother of safety.—Burke.

RAILROADS IN ARGENTINA.

Run Under Rules Framed by a Strict Government Commission.

Argentina has a commission which is in some respects even more powerful than the interstate commerce commission. The direccion general de ferrocarriles, as it is named, prescribes the number of trains to be run and insists on the number of coaches. Every night train must carry a certain number of sleeping cars, and dining cars, or restaurant cars, as they are known in Argentina, are obligatory on runs of certain distance. Every train is obliged to carry a letter box, and recently the railroads have been ordered into carrying the mails for nothing.

A medicine chest, a stretcher and a bicycle—the last to establish quick communication with the nearest station in case of an accident—are compulsory on every passenger train.

Every passenger coach is disinfected each month, and the precautions for preserving the cleanliness of sleeping cars are probably the most thorough in the world.

No time table can be altered without the sanction of the director general and at least two months in advance of their taking effect. If trains stop at stations not scheduled a heavy fine is imposed, and all late trains must be reported to the government, with the reason for being delayed.—New York Tribune.

GERMS ON SALADS.

A Simple Method by Which All Danger May Be Avoided.

Drs. Loir and Legagneux of Paris tested vinegar as a destroyer of the germs of typhoid fever. That they are killed by a mixture of wine and water in equal parts has long been known. These investigators prove now that twenty grams of vinegar to a liter of water kill the typhoid bacillus in an hour and five minutes.

"From this," writes the Paris correspondent of the London Lancet, "a practical inference may be drawn concerning salads. After washing the salad as usual, detaching each leaf, it should be put into water acidulated with ten grams of vinegar to the liter and remain immersed in this liquid for about an hour and a quarter. All vegetables ordinarily eaten uncooked may be subjected without any inconvenience to the same process."

A liter is equivalent to about a quart and ten grams are equivalent to about a third of an ounce. So if lettuce or other greens for salad be placed in water to which about one-third of an ounce of vinegar has been added and be left for about an hour and a quarter all danger of typhoid fever will be removed.

The Centipede.

The centipede was formerly a resident of the southern part of this country, but it has gradually worked its way to the north, so that now it is quite common in nearly every portion of the country. It thrives best in damp and warm places and has its redeeming feature in that it catches and destroys many of the domestic pests we are well rid of. Its method of catching an insect seems to be to spring over it, inclosing and caging it with its many legs. The belief occasionally met with that the centipede feeds on household goods and woolens or other clothing is without foundation. On the other hand, the bite of this creature is undoubtedly more or less poisonous, the effect depending on the susceptibility of the patient.—St. Louis Post-Dispatch.

"A Man Is as Old as He Feels."

The well known saying, "A man is as old as he feels, a woman as old as she looks," it seems, is pure Liverpudlian, and legal at that. During the trial of a breach of promise case there arose some argument as to the desirability of a man of forty-nine marrying a girl of twenty, whereupon the judge delivered the famous epigram. He even went one better, for, when counsel for the defense argued that the lady had had a lucky escape from marrying such a man as his client, the witty judge observed, "What the woman loses is the man she thinks him to be."—Liverpool Post.

The Proof Conclusive.

They had disagreed.

They had disagreed about her cooking.

He had spruna the bromide about her not being able to cook even as his mother did.

Whereupon she asked him, "If that be so how is it that you haven't chronic dyspepsia, as your father had?"

Whereupon they disagreed more thoroughly than ever.—Philadelphia Ledger.

Letter For Letter.

"Why does a poet begin so many of his sentences with 'O?'" said the politician.

"There's no answer," replied Mr Penwiggle. "Why does a speechmaker begin so many of his sentences with 'I'?"—Washington Star.

A Fine Marksman.

The new night watchman at the college had noticed some one using the big telescope. Just then a star fell.

"Begorra," said the watchman, "that felly sure is a crack shot."

In Both Ways.

"Mrs. Gaddy is a very authoritative person in her gossip."

"Yes, and what she says goes."—Baltimore American.

The miser is as much in want of that which he has as of that which he has not.—Syrus.

MAIL ADS always bring the desired results to advertisers and are also beneficial to the shrewd buyer.

Hill-hesitation is galling to your average driver. His sporting-blood boils when a 1910-Complex flivs past on the first long pull with apparent ease and matter-of-factness. Invariably he bawls-out his motor and labels it "a cheese." But—ten-to-one, the motor itself is guiltless. The real cause is *faulty lubrication.*

If your car does the hesitation on the grades, look first to the kind of oil you are using.

The Atlantic Refining Company, the oldest and largest manufacturers of lubricating oils in the world, have produced a group of four motor oils that answer *every* lubrication question, under any and all driving conditions.

Polarine, the leader of the group, is *the* correct lubricant for eight out of ten cars. The alternatives are Atlantic "Light," Atlantic "Medium" and Atlantic "Heavy."

At least *one* of these four is the exact oil for your particular motor. Your garageman will advise you which to use to get 100-percent results.

Atlantic Motor Oils bear the *same* relation to lubrication that Atlantic Gasoline—the accepted standard—bears to fuel.

Advise with your garageman at once on this matter of motor oils. His long experience with Atlantic products and all kinds of cars will prove valuable to you.

Read up on this subject. We have published a handsome and comprehensive book about lubrication. It is free. Ask your garage for it. If they cannot supply you, drop us a postal and the book will be sent you without charge.

CHAMPIONSHIP SERIES WITH MONONGAHELA ARRANGED

Pittsburg Steel Products and Monongahela Independents to Meet in a Series of Five Games.

As a means of settling a mooted question concerning the independent baseball championship of the Monongahela valley a series of five games is being arranged between the Pittsburg Steel Products baseball team and the Monongahela Independents. Some of them will be played here and some at Monongahela.

The first game will take place July 29 at Charleroi. Then on August 5 the Products team will play at Monongahela. Two twilight games will be arranged, one here and one at Monongahela, and if a fifth game is necessary it will be played in Charleroi.

Next Thursday the tubers will go to Tarentum there to meet the strong Allegheny Steel company club. On August 14 a five days' trip to the northern part of the state will begin, with the first game August 14 at Polk. August 15 the club will play at Farrell, August 16 and 17 at Franklin and August 18 and 19 at Oil City.

PITTSBUAG ATHLETES TO PLAY PRODUCTS TEAM HERE SATURDAY

For his Saturday game on the Charleroi grounds Manager C. W. Regester of the Pittsburg Steel Products Company is announcing the appearance of the Pittsburg Athletes under the management of Fred J. Miller. The Athletes have been switched from July 29 owing to the disbanding of the Yanks Fairbanks which wereto have played here. Samuels and Baker will form the battery for the visitors. Samuels reputation is that of a crack pitcher. Rea or Gray will pitch for the locals and Courtley or Guder will do the catching. The game will start at 3:30.

ONE WATER SERVICE FOR TWO HOUSES PROHIBITED BY STATE

The Public Service Commission has decided that one water service cannot be used for two houses on the same lot, when occupied by two families. The matter came up in the campaign of John R. Powell of California borough, who charged that the California Water company had laid a charge for service to two houses on the same plot of ground, each occupied by different families. Powell also alleged that the company changed its meter without his consent, which the commission said had the right to do. The complaint was dismissed.

CONDITIONS DEPLORABLE IN MEXICO REFUGEES DECLARE

Samuel C. Rodgers of Charleroi Among Others Tells of Work of Bandits in Country to South.

In an interview with refugees from Mexico the Tampa Sunday Tribune of recent issue published a statement from Samuel C. Rodgers, formerly of Charleroi, who has been engaged in mining work. Mr. Rodgers gave but a short interview. He declared the state of Guanajuato was overrun with bandits, who apparently had the passive if not the active support of the Carranza authorities. Telling of the imprisonment of Americans, he said it followed on the heels of the Carrizal incident. Refugees described conditions in Mexico as deplorable. Intervention was the demand of all, and the administration was rebuked for its stand in support of Carranza, who they declare is the most unpopular man in Mexico.

He Got the New Suit.

"When I was a boy your age I used to have to wear my father's trousers cut down to fit me."

"I know, pa, and if you were the boy that I think you were I'll bet you vowed many a time that if you ever had a son he'd never be made to wear such clothes."—Detroit Free Press.

Her Majesty, the Cook.

"Well, is our dinner party going off all right tonight?"

"I hope so."

"And what are we to have?"

"I don't know as yet. The cook is to give me an audience at 4:30."—Kansas City Star.

Logical.

Miss Bute—You really should give up smoking; it affects the heart. Jack Lover—By that reasoning I ought to give up you too.—Boston Transcript.

We are never so happy or so unhappy as we suppose.—Rochefoucauld.

GEO. GUNDAKER STATES HE HAD ONE LUCKY DAY

Tanlac Helped Well-Known Drayman After Everything Else Failed Him.

Almost everybody in Erie, Pa., known G. W. Gunbake. of 441 East Fifth St. George, as he is fondly called by those who have admired him for his honesty and integrity for a good many years, has been a sufferer from stomach trouble and indigestion.

"I had a terrible case of stomach trouble and indigestion," he explained, "and although I had doctored several years I could not get any relief.

"I would just bloat up like a mule and get cramps after eating. Yes sir, I would feel all out of shape. The only relief I could get was by taking a little soda, and that relief was only for an hour or so at a time.

"It was a lucky day for me when I got this Tanlac, and I certainly do thank the fellow who recommended it to me. Tanlac is the only medicine that really every helped me, and I had tried everything. Yes sir, everything. I am now like a new man and I advise any one who has stomach trouble or indigestion to use this medicine. It sure will cure them. My phone number is Mutual 1707-X, and I would not mind answering any other questions about my relief."

Tanlac is sold in Charleroi exclusively by Piper's Pharmacy where the premier preparation can now be had.

U HONTOWN SHAVELESS BY REASON OF BARBER'S STRIKE

All the Uniontown barber shops were closed Monday due to a strike of the journeymen barbers, and unless the differences are soon adjusted, whiskers will be used as weather vanes. The journeymen demanded an increase in price of haircuts from 25 to 35 cents and the boss barbers refused to grant the demand. About 50 journeymen barbers are on strike and the bosses say they will keep their shops closed until the strike is settled.

INVESTIGATION INTO DEATH OF FOREIGNER

An investigation into the death of Biforni Quercioli, who was found on the railroad tracks at Centerville is being conducted. The top of Quercioli's head was crushed in, that being his only injury.

Fined For Fighting.

For fighting Sunday night L. Emplit, A Delestine and Wattie Mathews were fined each $1 and costs by Burgess S. L. Woodward Monday evening at a hearing. Mathews had been arrested the previous night for drunkenness and singing, but was discharged.

FREAK BASEBALL PLAYS.

A Tin Can Throw and the Shortest Two Bagger on Record.

Freak plays make baseball humorous if not interesting. Some of these plays are said to be the result of quick thinking, but as a matter of fact most of them are simply luck, says Arthur Macdonald in the Physical Education Review. Curious things happen. A ball fell into a tin can, and, it being impossible to get it out in time, can and all were thrown to the baseman.

Another ball hit the end of a nail driven through the opposite side of a fence and could not be got down until all the runners scored.

A swift hit glances off the pitcher's hand, is snapped up by an infielder and thrown to first, putting the man out.

Redhot liners or grounders sometimes hit the first or third base bag and glance away for singles or even two baggers.

The shortest two bagger known was when the ball grazed the bat, shot up a few feet and fell in front of the plate. As the catcher reached for the whirling ball it glanced from his glove and bounded back to the stand, and the batter made second easily.

A center fielder saw a mitt in the way of the shortstop and walked about sixty feet in to move it out of the way, when he heard the crack of the bat and saw a hot ball coming straight at him.

He could do nothing but try to catch it and did, to his surprise. But he was given credit by the crowd for being a great student of batters.

THE VOICE AND THE STAGE.

Being a Good Elocutionist Does Not Make a Good Actor.

Of all the things to eschew, elocution schools stand first. Actors should know nothing of the rules of elocution as taught in any school of which I have ever heard. I can always tell at the first glance whether an actor is a student of elocution. No good elocutionist was ever a good actor. That is, no good reciter—and elocution schools produce only reciters—is ever a good actor.

Reciting and acting are two entirely different arts. The reciter is never natural, never can be. Awhile ago one of the most distinguished professors of elocution in America—he had the chair of elocution at one of our biggest universities—came to be an actor. It was thought that he would be something wonderful because of his knowledge and gift of elocution. He went back to teaching. He could do that better than most, but his acting was bad. All the rules of elocution an actor ever needs can be obtained in singing lessons.

Now, proper enunciation of words is a different matter. An actor should not have to be taught that, but if he does need it it is a pretty bad need, and he should never rest until he has lost all slovenly habits. Some of my friends think I am too severe on this point. I am not. One cannot be too severe. It is clean cut work, perfect in its smallest details, that makes for perfect illusion on the stage, and I am always for such work.—Henrietta Crosman in Century.

A Tragic Wedding Ring.

A tragic story of a forgotten wedding ring is told in the "Lives of the Lindsays." He should have been at church when Colin Lindsay, the young Earl of Balcarras, was quietly eating his breakfast in nightgown and slippers. Reminded that Mauritia of Nassau was waiting for him at the altar, he hurried to church, but forgot the ring. A friend present gave him one, which he, without looking at, placed on the bride's finger. After the ceremony was over the countess glanced at her hand and beheld a grinning death's head on her ring. She fainted away, and the omen made such an impression on her that on recovering she declared she was destined to die within a year, a presentment that probably brought about its own fulfillment, for in a few months the careless Colin was a widower.

Both of One Mind.

Mrs. Stormyweather, who had been engaged in a somewhat prolonged and heated dialogue with her husband, beat a dignified retreat so soon as she found she was getting the worst of the argument and turned her attention to culinary matters as a balm for her ruffled soul.

"Jane," she said, "I want you to put on your things at once and go out and see if you can get me a plaice."

"Yes'm," replied Jane, with alacrity. "And while I'm about it I may as well look for one for myself, too, for I'm blest if I can stand the master any more than you."—London Mirror.

Remorse.

A legal journal tells of a trial in which the following remorseful letter appeared in evidence:

"Mr Bidwell: Dear Sir — This is what I never expect to come to. But it is trouble, and no one to help mee out. So I want you to have this young woman Burried. But mee, let me lay top of ground, for the Turkey Buzzards to eat, for I have did rong. Joseph Bradley."

What Landed Him There.

"My good man, what are you in prison for?"

"My convictions."

"Your convictions?"

"Yes, mum. If the jury had acquitted me I wouldn't be here."—Detroit Free Press.

A cruel story runs on wheels, and every hand oils the wheels as they run.—Ouida.

CITTA VECCHIA.

Malta's Ancient Capital a Constant Reminder of St. Paul.

The place where Publius, the chief man of Malta in St. Paul's day, lived is thought to be Citta Vecchia, the ancient capital. It lies near the center of the island, about midway between Valetta and St. Paul's bay, and is connected with Valetta by a railroad.

Here every turn reminds us of St. Paul. The principal square is called Piazza San Paolo, and here we find a fine cathedral, which is said to be built on the very site of the house of Publius. Entering the cathedral, we see a great image of St. Paul, covered with a silver cloth, a reminder by contrast perhaps of how little of that precious metal he was possessed of in his lifetime.

In a nearby suburb of Citta Vecchia is another church dedicated to St. Paul and named for him, which the inhabitants devoutly believe is built over the very grotto in which he lived during his three months on the island, and the catacombs of the grotto are also called after his name.

One striking monument to the apostle reminds every passing traveler of this wonderful story. In the bay of St. Paul is a tiny island called Selmun, and on this island is a towering statue of the apostle, which can be seen from far, a fit emblem of the colossal character which in all the ages since has so influenced and blessed the world.—Christian Herald.

SACRED NUMBERS.

Four and Forty Were Held In Reverence by the Ancients.

The number four was anciently esteemed the most perfect of all, being the arithmetical mean between one and seven. Omar, the second caliph, said, "Four things come not back—the spoken word, the sped arrow, the past life, the neglected opportunity." In nature there are four seasons and the four points of the compass.

Forty, a multiple of four by ten, is one of the sacred numbers. The probation of our first parents in the garden of Eden is supposed to have been forty years. The rain fell at the deluge forty days and nights, and the water remained on the earth forty days. The days of embalming the dead were forty. Solomon's temple was forty cubits long. In it were ten lavers, each four cubits long and containing forty baths.

Moses was forty years old when he fled into the land of Midian, where he dwelt forty years. He was on Mount Sinai forty days and forty nights. The Israelites wandered in the wilderness forty years. The Saviour fasted forty days and nights before entering upon public life. The same time elapsed between the resurrection and the ascension.—Exchange.

Keep Gloom From Sickroom.

There ought to be some sort of a test for sickroom visitors. People who are just recovering from the throes of death and have the grim reaper's shoulders on the mat should not be placed at the mercy of the disconcerting, disheartening and depressing friends who gain admittance to the chamber under the guise of kindness. If some one can devise a way to detect the visitors who know of somebody who died of the patient's malady and stop them at the threshold, recoveries will be quicker and deaths fewer. In the absence of such a test the best kindness folks with grouches, hard luck tales and yarns of misery in their system can do for those in sickness is to stay away. Many a patient has spent days recovering from the effects of a ten minute visit by a misguided gloom spreader. — Detroit Free Press.

Lord Salisbury's Joke.

Count Miyatovich, former Servian minister, told in London the story of a meeting he once had with the late Lord Salisbury. "He was a brilliant man and a great statesman," he said. "A little cynical, he never lost an opportunity of having a laugh at one's expense, but in his laugh there was never a trace of any malice. In the interview I recounted my nation's history, when he seemed a little bored. At the end Lord Salisbury dryly remarked: 'I thank you, minister. Now I know what I did not know before—that you have a brilliant history. But, my dear friend, it would have been much better for the Serbs if you had a less brilliant history and a port on the Adriatic.'"

News In Olden Times.

Not many minutes after a statesman has finished a speech nowadays the news is selling in the streets and has been flashed to every capital in Europe.

It was different in the elections in the time of Pitt. He made a memorable speech one March, and the eager public only learned exactly what he said from the Gentleman's Magazine of the following November.—London Saturday Review.

The Real Toil.

"I used to practice five hours a day on the piano," said the musician.

"You are through with that drudgery now."

"Drudgery? Those were times of restful leisure. Now I have to work fourteen hours a day giving lessons."—Washington Star.

All Foolish.

"Did you ever write a foolish love letter?"

"I never wrote any love letters."

"That is practically what I asked you."—Houston Post.

Heed the Warning If You Have a Cough!

The deep-seated cough that does not yield to ordinary treatment may lead to distressing pulmonary troubles. Or it may bring on a chronic bronchial affection. Many persons now incapacitated might have avoided such disastrous results by timely care and efficient medical treatment.

Among the latter Eckman's Alterative has an enviable record. It is a lime-bearing preparation which is easily assimilated in most instances. Where used in connection with nourishing food and proper living, it has given widespread relief.

Its freedom from poisonous or habit-forming drugs of any nature whatsoever renders it safe to try. And its content of calcium gives it tonic value.

INFECTED PIECE OF NATURE

Our streams once unfelled by man ran from the mountains to the sea in all of Nature's purity. They ran through our valleys and meadows in all their pristine beauty and offered to all animate nature that which would innocently quench the thirst of man and beast and help them live. Today it is not so. Man relentlessly, regardless of his brother down stream now throws his waste and that of domestic animals into the waters flowing nearest his home, forcifully remarks the state health commissioner, Dr. Samuel J. Dixon.

In that with which Nature has endowed much of our territory more richly than many other countries, we now find lurking poison has been hidden, in some cases only to be seen by the aid of the microscope.

Now is the season when we travel through the country to be happy and lay up energy and strength for the toil of the coming winter. Alas! The want of intelligence and care makes us deaf to the teaching of preventive medicine and we quench our thirst at the stream we run across regardless of its purity and often the sparkling tumbler of water is only to be compared with the draught of the deadly hemlock. The parched lips have been moistened and the thirst satisfied but the day of judgment too often comes bringing the development of typhoid fever which in years past we could only compare with some of the plagues that ravaged our ancient cities.

Those of us who collect, tabulate, and have ever before us the statistics that show the suffering and sorrow that still continue from typhoid fever, beg you to awaken to that which causes so much distress. By proper care it can be avoided.

Never drink out of an unknown surface stream. When traveling see that pure water is carried along as well as food, otherwise the harvest of sickness and death will follow and defeat the object of summer vacations.

Discussing the proposed enactment of a law reducing letter postage to one cent, the Hartford Courant in a recent issue remarked that up to a certain hour on a certain day its box at the post office contained precisely thirteen letters, all absolutely worthless and each bearing a one cent stamp. According to the Courant, postage is already too cheap. To reduce it still more would merely increase the volume of useless stuff that pours into the offices of the newspapers from day to day. Whatever the common people may think of this matter we are pretty confident that the majority of newspaper workers will heartily agree with the Courant in protesting against the further reduction of letter postage. It is not burdensome at the present moment.—Altoona Tribune.

---

* PICKED UP IN PASSING *

Little Hetty had stayed home from the picnic with her tinier brother, while the two older children of the family went. The result was that she and the tinier one were brought toy balloons to dissipate their disappointment and to give them at least a taste of the picnic joys.

Evidently there had been considerable disappointment with the tot, though she was brave. But she was a thoughtful little person when told that the two older ones, Agnes and Edwin had brought the balloons just because she and the younger Charles had been unable to go. Then she hit upon a scheme.

"Well, mamma," she said, "When Charles and I go for the next picnic we will bring home balloons for Agnes and Edwin, won't we."

Small Nellie had been to an "Uncle Tom's Cabin" matinee. After the show was over she said: "Mamma, does little Eva play again tonight?"

"Yes, dear, I suppose so", replied the mother.

"Well," continued Nellie, after a moment's thought, "I don't see, how she can die and go to heaven at 4 o'clock and get back in time to die again at 8."

ELECTRIC SPARKS

Which?

If you type write like wrong on the typewriter.
Then you actually are a right type writer.
But if you type right.
Write right, by a mistake.
With the wrong typing type on the typewriter. —Life.

Most boys have a variable name so as to get what they want when mother says they shouldn't take him another piece of pie.

Kid brothers have an unruly habit of growing up to be their sisters' best beaux if not husbands before they're out of teens.

There's no poetry in motion;
It's not like mosquito lotion,
When a bite upon a tender spot you get.
If an awful wrench is handsome,
While mosquito bites you ransom,
Think of all the exercise your fingers get.

—R. L. Goldberg.

An Old Proverb

It used to be proverbial that every man (and it is certainly no less true of woman) is either a fool or a physician at forty. This means that every intelligent person must learn so much about caring for his own health that by the time he is forty years of age he can almost be reckoned as a physician.

Why, then is there so much talk by doctors against "self-medication?" A woman can recognize all ordinary ailments without calling on a doctor. If they are ailments distinctive to her sex she generally knows enough to use that greatest of all remedies for such ailments, Lydia E. Pinkham's Vegetable Compound and likewise she is familiar with the standard remedies for other diseases.

PENNSYLVANIA OPERATES MANY TRAINS IN SAFETY

Reports which have just been received from all parts of the Pennsylvania Railroad system show that, in the first six months of the present year, 92,380,184 passengers were carried without loss of life of a single one of them in a train accident.

This completes two and one-half years in which no passenger has been killed in a train accident on any part of the Pennsylvania system, either east or west of Pittsburg. In that time 453,952,298 passengers have been safely carried, in more than 3,000,000 trains, for a total distance of over ten billions of miles or 400,000 times around the world. Upward of 5,500,000 freight trains were operated in the same period over the 12,000 miles of line and 26,000 miles of track which make up the Pennsylvania Railroad system.

On the lines east of Pittsburg, no passenger has been killed in a train accident for more than three and one-half years, and 396,000 persons have been carried in safety over these lines, alone, during that period.

BEALED TOOTH CAUSES DEATH OF YOUNG WJMAN

Mrs. Cora Durbin Afflicted With Blood Poisoning Following Removal of Troblesome Molar.

Blood poisoning that developed following the removal of a bealed tooth caused the death of Mrs. Cora Mamola Shulz Durbin, aged 27 years, wife of Joseph Durbin, at the home of her father, Phillip Schulz, of 226 Berther avenue, Washington, Monday.

Mrs. Durbin had suffered severely from the tooth for some weeks and a few days ago went to a dentist who extracted it. Infection followed affecting the spine, and resulted in her death.

Her father, mother and husband survive with the following four children: John Bernard, Richard Leander, Ruth and Gertrude Matilda.

Funeral services were held this afternoon at 2 o'clock at the Schulz home. Interment later in the Washington cemetery was private.

Don't Let a Cold Get a Good Start

The way to check a cold is to fight it from the first. Even the worst maladies often are easily conquered if attacked early enough. Colds may lead to asthma, bronchial troubles and pulmonary affections. In the treatment of these one of the first needs is to build up body resistance.

Eckman's Alterative often has assisted in such upbuilding. As a treatment for the troubles named, it has been used for more than twenty years. And in many instances it has effected lasting relief.

As with any other medicine, it should be regarded only as a first aid to right care and hygienic living—and a safe one. For it contains no narcotics, opiates or habit-forming drugs of any sort.

At your druggist's.
Eckman Laboratory, Philadelphia.

Mrs. Sara Winebrenner and son, Franklin of Woodlawn were guests at the home of Mr. and Mrs. W. F. Haggerty Sunday.

Mrs. Paul Peacock returned to her home in Pittsburg after visiting here.

DIVISION OF MONONGAHELA PRECINCT IS RECOMMENDED

The report of the viewers in the matter of the division of the second precinct. Second ward, Monongahela, into another voting precinct has been filed. The viewers report the matter favorable and recommend that the present second precinct be divided into two precincts, to be known as the second and third precincts, the voting place of the former at the old City hall, and of the latter at Crall's greenhouse. In conducting their investigation the viewers found that there are about 500 voters in the present second precinct and that the voting population will probably increase very rapidly. The board of viewers is composed of William Wylie, Grant E. Hess and T. S. McCurdy.

PACKET LINE ALONG THIS RIVER FORMED

The effort of the department of rivers and harbors to revive river navigation has resulted in the organization of the Pittsburg and Brownsville Packet company which has made application for a certificate of public convenience to the Public Service commission. The new company is the first packet company to make application for a charter in years.

The Pittsburg & Brownsville Packet Co. will operate on the Monongahela, Allegheny and Ohio rivers and will have its terminals at Pittsburg and Brownsville. The application sets forth that the packet company will carry passengers, baggage and freight. Should the venture prove a success, it is said that the company will extend its route to Morgantown and Fairmont.

With the exception of the oil packet Renevoah, which has been making regular trips on the Monongahela river and serving towns from Masontown to Pittsburg, there is no public packet service on the Monongahela river and the new company will have no competition except by the railroads.

The capital of the new company is placed at $6,000. The solicitor for the application is Elias Sunstein, Pittsburg. When the charter has been granted the company will buy a boat. The wharf will be located in West Brownsville. A hearing for the certificate of public convenience will be held this week at Harrisburg.

IN JAIL TO AWAIT TRIAL ON OLD CRIME

Mickey Vegso Takeen to Washington When His Bond is Withdrawn—Aggravated Assault and Battery Case Of Robert Grant

For a crime that was committed about a year ago and for which there has been no hearing yet held in the county courts. Mikey Vegso of Charleroi was remanded to jail to await such time as his accuser, Robert Grant is able to face him. Aggravated assault and battery is charged.

It is told that Vegso, Grant, John Vegso and others engaged in a fight about one year ago in the hill district. John Vegso is alleged to have struck Grant with a plank, while Mickey prevented others from going to the aid of Grant. For a long time Grant was in the hospital and even yet has not recovered. John Vegso fled, but Mickey was arrested. Subsequently he was held under $1,000 bail furnished by his mother for his appearance in court to answer to his charges. Lately he has evidenced a desire to depart from this community. To have done this would have meant forfeiture of his bond, so his mother surrendered him and he was taken to Washington. The case has been put off from time to time, but it is expected Grant will be in shape to appear at the coming term of court. His wife made the information against Vegso.

MINERS NOT ENTIRELY PLEASED WITH OFFICERS

Miners are not yet completely satisfied with the changes in the official corps at the head of District No. 5, Mine Workers of America. Regulars who have long been connected with the organization, some in an official capacity, are objecting to the appointment of Robert Gibbons as vice president. They allege he was a disturber in 1911 and made himself conspicuous in opposition to work of the district officers. Generally the district officers are well liked.

Berryman's July Clearance Sale

CONTINUED

This "Unprecedented Bargain Feast" will be continued all this week. This store has always enjoyed a reputation for high quality of goods and reasonable prices. Most all sales have been conducted after July but this year due to heavy purchases and early shipment of fall goods, to keep from paying the wonderful advances in prices, we have had to clean our shelves and make room for the goods already shipped. Its a true saying "Necessity Knows No Law" and we have gone over the entire stock and ruthlessly stripped every article of its profit and in hundreds of cases, of big slices of the cost.

Clearance Sale Prices in Every Dept.

PENNSYLVANIA RAILROAD

Order No. 56

MAN INSTANTLY KILLED BY PASSENGER TRAIN

A man believed to be Barrett Pearlman,, aged 35 years, was instantly killed about 2:30 o'clock Tuesday afternoon when struck by a Pennsylvania passenger train, bound for Washington, as he walked along the track about midway between Canonsburg and Morganza. Nobody has positively identified the dead man who was brought to the morgue of Deputy Coroner W. H. McNary at Canonsburg. The name of "Barrett Pearlman" was woven on the cuffs of his shirt and was on his collars.

Deeds Recorded.

July 1,—Athalia D. McKean, North Charleroi, to Leon Borne, Charleroi, a lot fronting 40 feet on Shady avenue, Charleroi, and extending back 130 feet; consideration $1.

July 10, 1916—George W. Dawson et ux., Charleroi, to Antoni Kurilki, Monessen, two lots, 80 by 120 feet, in the Lockview Terrace plan, Fallowfield township; consideration $400.

NO MORE THREE-FERS WITH TOBACCONISTS

Toby Manufacturers Advancing Prices Because of Increased Cost Of Production.—Have to Use Men Now Where Girls Formerly Worked

According to the information that is going the rounds from the tobacco jobbers to the dealers the price of tobies is to be given a general boost. Those which formerly sold three for 5 cents will now be two for 5 cents, and the two-fers will be three for a dime. Tobies which sold four for 5 cents are said to have been taken off the market, but the man who prefers them won't have to get eye glasses to find them in the two-fer box after the price raise becomes effective.

When it is considered that practically all the tobacco used in the manufacture of tobies is raised in the United States, the average man would wonder where the connection was made with the European war. But it's there. And it must be said that the excuse of the tobie manufacturers is just about as plausible as those advanced by any other manufacturer who has boosted prices since the war started.

That girls attracted by more lucrative salaries in the munition plants have left the tobacco shops and that their places have been filled by rollers who received men's wages, is the only excuse of the tobie manufacturers for the contemplated raise in price. Tobie manufacturers are compelled to pay 1½ much tax on 100 tobies as cigar manufacturers do on their product, which retail at considerable better prices. That fact also was taken into consideration when the dealers got together and concluded to raise prices. Just when the boost will take effect is not known, but it will likely be placed in effect August 1.

Mr. and Mrs. John Acres of the Hotel Main, Carnegie motored to Charleroi Saturday and spent the week-end with Mrs. George Woodhall of Washington avenue. Mrs. Acres was formerly Mrs. Minton of Charleroi.

Mrs. Catherine Davis was a visitor with friends in Pittsburg Monday evening.

CASES DISPOSED OF IN VACATION TIME

Court Takes up Work in Spite of the Fact That Official Announcement Had Been Made Previously That Court Would Suspend Business

Although the court has made a semi-official agreement with itself that no pleas would be heard during the bar vacation period, yet the court is not unmindful that justice should be tempered with mercy; and as it would seem to be a merciful act to get a man out of jail these hot days, even though he may have to be returned to that durance vile, the court sat Monday and the following cases were heard.

Joe Turk, coal miner of Canonsburg, employed with the Chartiers Valley Coal company, who, according to his own statements, changed a danger signal at the mouth of the mine, for the purpose of preventing fellow miners from going into the mine to work, during the period of labor trouble between the employes and company, appeared in court yesterday and entered a plea of guilty. After much argument by attorneys representing the defendant and the coal company he was paroled. In agreeing to parole the defendant, Judge R. W. Irwin gave explicit orders that he must stay away from the mines of the company and refrain from interfering with the work of the company, or of persons who labor in the mines. Judge Irwin stated that it was a clear and gross violation of the law to place a danger signal in the mine. In speaking of the differences existing between the company and its men, the court said this was a matter in which it did not propose to interfere or even make a suggestion Judge Irwin characterized the affair as being one of the unpleasant features in labor difficulties. Turk, the defendant, agreed to observe the conditions of his parole, being informed that in case of a repetition of such an offense on his part, he would receive sentence forthwith.

Tony Lucy, a young coal miner of Ellsworth, who it was alleged while working in one of the mines at Cokeburg had persisted in rambling about in the various sections of the mine, contrary to law and in direct violation of the company's regulations, and who has been in jail for a short time in default of bail, went before the court and entered a plea of guilty to a charge of violating the mining laws His attorney asked that leniency be shown the defendant, who gave assurance that he would not violate the rules of the company again. Judge Irwin admonished young Lucy hereafter to conform with all regulations and imposed a fine of $20 on him, ordering that he pay the costs.

Mabel Darah, of Canton township entered a plea of guilty to a statutory offense and was sentenced to pay a fine of $1 and costs and to undergo imprisonment in the county jail for a period of three months.

Sidney Bekultz, of West Brownsville, who has repeatedly been before Justice C. E. Eckles charged with wife beating, and who a short time ago was sent to jail to be tried in court, entered a plea of guilty to charges of assault and battery and surety of the peace on oath of his wife, Julianna Bekultz. Judge Irwin said that not long ago he sent a man to the workhouse for a similar offense, and it was but a short time until the defendant's wife, who had made the information, appeared in court asking for a parole. He said that is was very difficult sometimes to get at the real trouble in cases of this nature. The sentence of the court was that the defendant pay a dollar fine and costs, and spend three months in jail.

Cary Adams and Lottie Wilson, both of Canton township, against whom had been laid charges of offenses against morality, had expressed their desire to enter pleas of guilty and have their cases disposed of; but when brought before the court they refused to enter that kind of a plea and were remanded to jail, to await the convening of the August term of court.

Charleroi Tigers Win Again

The Charleroi Tigers defeated the Monongahela All Stars Saturday by the score of 13 to 0. Score:

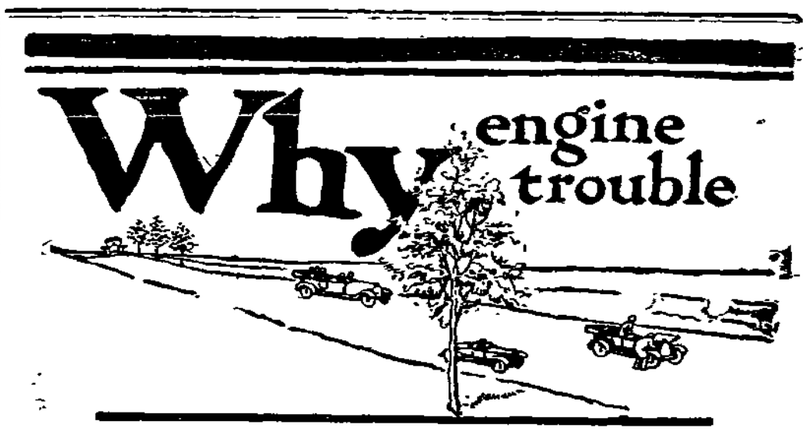
Foot Caught in Elevator.

Paul Manon, son of Dr. and Mrs. J. W. Manon of Fourth street, sustained a contusion of his foot this morning when the member was caught in the freight elevator at the local Macbeth-Evans Glass plant where he was working. It is not thought the injury will prove serious.



Frankly, there may be steenteen factors contributing at one time or another to "engine trouble." But it's always a safe bet that the greatest offender in the whole militaristic mob is Poor Lubrication. There's one *sure* way to banish lubrication-troubles: *Atlantic Motor Oils.*

Here are oils that have done as much toward banishing engine-trouble via better lubrication as Atlantic Gasoline, the accepted standard, has toward increasing power, mileage and general car-happiness.

Atlantic Polarine is commander of the crew of four principal motor oils, being *the* correct lubricant for eight out of ten cars. In all alternative cases, Atlantic "Light," Atlantic "Medium," or Atlantic "Heavy" is the one to use. Ask your garageman which.

In actual tests, it has been definitely demonstrated that a *properly lubricated* motor will yield as much as five additional miles to the gallon of gasoline.

Use the combination: Atlantic Gasoline for fuel, Atlantic Motor Oils for lubrication.

The oldest and largest manufacturers of lubricating oils in the world recommend this combination to you without reservation. They ought to know whereof they speak—and they DO.

Read up on this subject. We have published a handsome and comprehensive book about lubrication. It is free. Ask your garage for it. If they cannot supply you, drop us a postal and the book will be sent you without charge.
